

## PERSONAL STATEMENT

I'm an experienced UI/UX designer/developer focused on clean and accessible interfaces built with HTML, CSS, Js, Sketch, and Figma.

I specialize in website creation and product design from initial concept to final completion, including some back-end implementation like C#, PHP, etc.

I have a deep fascination with UI/UX design as well as Gaming (modern or retro)... if I could combine both of those passions that would be my ideal career trajectory.

25<sup>Yrs</sup>  
Screen Design

5<sup>Yrs</sup>  
Product Design

- 2017 - Present <sup>5 yrs</sup>  
UI/UX Designer  
Meridian Knowledge Solutions
- 2010 - 2017 <sup>7 yrs</sup>  
Sr. Front-end Website Developer & UI/UX Designer  
Infinity Technology, Inc.
- 2004 - 2010 <sup>6 yrs</sup>  
Front-end Website Developer  
Skyline Technologies, Inc.
- 1997 - 2004 <sup>7 yrs</sup>  
Front-end Website Developer  
NetNet, Inc.

## SPECIALTIES

## SKILLS

## ACCOMPLISHMENTS

**OE** **OpenEmu — Website + UI Graphics**  
I created the website with Tailwind, Twind, Vue, Js, and GitHub. I also supplied vector illustrations for a few of the controllers in the preference configuration.

**ff** **Foundation Fw CS4 — Author**  
I co-wrote a book with an amazing group of talented designers. Some of the design techniques carry over to other design software like Sketch and Figma
